

## Precalculus A

### 4.4 Graphing the Sine and Cosine Functions

Day 1

Hw: Finish Handout

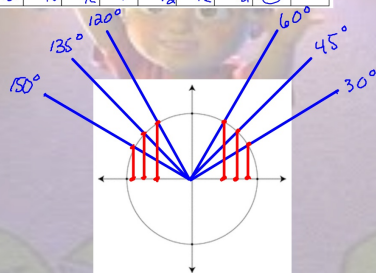

D. Paulson

### Objectives:

SWBAT graph the sine and cosine functions using the unit circle.

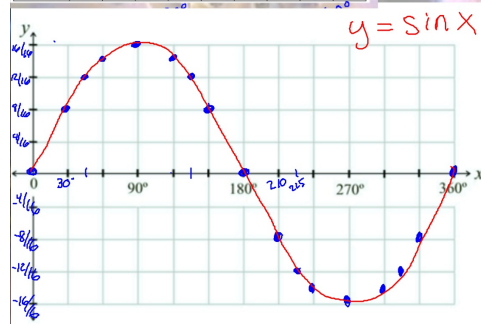

D. Paulson

Degree ( $\theta$ )	0°	30°	45°	60°	90°	120°	135°	150°	180°

What do you think will happen if we multiply the sine and cosine curve by 2?

What do you think will happen if we multiply the sine and cosine curve by 1/2?

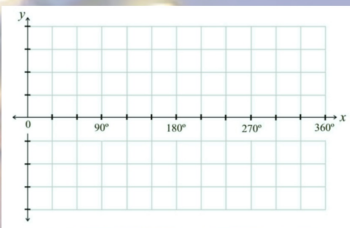

$$y = 2\sin x$$

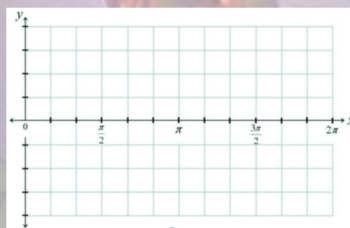

$$y = 2\cos x$$

$$y = \frac{1}{2}\sin x$$

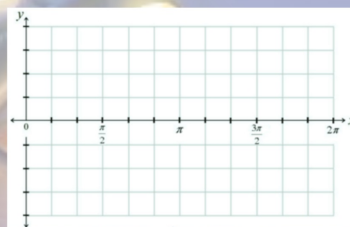

$$y = \frac{1}{2}\cos x$$

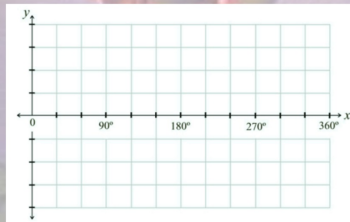

What do you think will happen if we multiply the sine and cosine curve by a negative?

$$y = -\sin x$$

$$y = -\cos x$$
